TECH SKILLS

- Django
- Flask
- Python
- Java
- Flutter
- SQL

SOFT SKILLS

- Problem-Solving Skills
- Critical Thinking
- Effective Communication
- Adaptability and Flexibility
- Time Management

EDUCATION

- B.E Computer Science**
SRM Valliammai Engineering College, Kattankulathur
2019 - 2023
CGPA : 8.7

LANGUAGES

- Tamil
- English

WORK EXPERIENCE

Accenture

OCT 2023 - PRESENT

Associate Software Engineer

- Assisted in reworking and redesigning Business Process Flows (BPS), ensuring consistent use of symbols across all flows. Collaborated with client GPM and GPOs through bi-weekly review sessions via direct calls to refine and validate the reworked processes

MINI - PROJECTS

Blogs API & APP

Frontend : Django Templates

Backend : Django REST Framework

- Designed and implemented the user interface ensuring a user-friendly experience.
- Ensured the registration page was responsive and accessible across different devices and browsers.
- Collaborated with the event organizers to gather requirements and iterate on the design based on feedback.

Quiz App - Android Application

Frontend : Flutter Framework

Backend : Firebase by Google

- Developed backend functionality using Firebase to handle data synchronization and storage.
- Implemented secure user authentication using Firebase Authentication.
- Created real-time monitoring tools for staff, allowing them to oversee live quiz sessions.

CERTIFICATION

- Full stack web development with NodeJS - Udemy
- Web Development - ShapeAI
- Flutter & Dart: The Complete Flutter App Development - Udemy
- Fundamentals in C & Python - Jothi Computers

HOBBIES

- Watching movies
- Cooking

INTERNSHIP

CODEGENIE | UI/UX DESIGNER

June 2022 - July 2022

- Collaborated with a cross-functional team to design and develop a website to market an attendance app.
- Utilized Figma and Adobe Illustrator to create wireframes, prototypes, and high-fidelity designs.
- Gained valuable hands-on experience in UI/UX design principles and industry-standard tools

DLK TECHNOLOGIES | IOT INTERN

Jan 2021 - Feb 2021

- Participated in the development and implementation of IoT projects, gaining practical experience in sensor integration and data analysis.
- Learned fundamental concepts and principles of IoT, including data collection, connectivity etc.
- Acquired comprehensive knowledge of various IoT platforms, sensors, and chips through hands-on experience and training.

EXTRA-CURRICULAR

- Winner of Holmes Quest - Demonstrated **problem-solving** skills and **strategic thinking**
- Event Organizer - Organized **Code-a-thon** event during Department Symposium - 2023
- Poster Designer - Actively participated in designing posters for Symposium - 2022 & 2023 events
